

### PRODUCT DESCRIPTION

- LAMB MAKER LAMB FEEDLOT PELLETS is suitable for feeding to LAMBS for fattening purposes.
- RIVERINA LAMB FEEDLOT PELLETS can either be fed in a penned situation or to lambs with access to a pasture. Being grain based, this 16% protein ration provides all the essential vitamins and minerals required by the lamb, and includes a rumen modifier (to improve feed conversion) and a rumen buffer (to aid in the prevention of Acidosis).

### COMPOSITION

- Base grain as depicted seasonally, and therefore proportions may vary.
- Barley, wheat, maize, sorghum, bran and pollard, urea, vegetable protein meals, molasses, vegetable oil, limestone, sodium bentonite, dicalcium phosphate, sodium bicarbonate, ammonium sulphate, salt, Kokcisan™, Riverina Vitamin and Mineral Ruminant pak.

### DIRECTIONS FOR USE

- Designed to be fed in conjunction with hay and/or pasture.
- Roughage supplied should be supplied adlib and reducing to a minimum not less than 10% of their total intake.
- Ensure that there is ample access to clean water.
- Introduce lambs to this ration gradually over a 2-3 week period, after which they can be fed adlib.
- NOTE: When grain feeding lambs, it is important that they are introduced & adapted to the ration slowly to prevent gorging and acidosis.

Feeding Period	Pellet Intake	Roughage Intake
Day 1	100g	Adlib
Day 2	200g	Adlib
Day 3	300g	
Day 4	400g	Reducing
Day 5	500g	
Day 6	600g	to
Day 7-10	700-1000g	
Day 10+	Adlib	At least 10% of Total intake

- RIVERINA LAMB FEEDLOT PELLETS is suitable to be fed to all types of lambs and sheep. By supplying the right balance of nutrients and fed in conjunction with roughage, this ration will promote rapid growth.
- RIVERINA LAMB FEEDLOT PELLETS can also be fed as a supplement to pasture or as a maintenance ration in times of drought.

### TECHNICAL RELEVANCE

- Notable improvement in performance when compared to using traditional grain feeding regimes.
- Excellent conditioning and growth rates.

### VETERINARY CHEMICALS

- This feed contains the following veterinary chemical–
- Kokcisan™ as salinomycin at the rate of 15mg/kg.

### MEDICINAL CLAIM

- Salinomycin is added to this feed to improve the efficiency of rumen digestion and feed conversion.

### SPECIAL FEATURES

- Palatable mix for finishing lambs on grain.
- Includes rumen buffers and a modifier to enhance performance.

### QUALITY PRODUCT

- Manufactured to strict quality control standards.

### PRECISE FORMULATION AND MIXING

- Formulated in accordance with current research into sheep nutrition and mixed from a variety of quality raw materials.

### WITHOLDING PERIOD

Meat Nil. Wool Nil.

### WARNING

Do not feed to dogs, horses or other equines, may be fatal.

### STORAGE

Cool, dry conditions away from vermin.

### EXPIRY AFTER MANUFACTURE

3 months from the date of manufacture.

### PACK SIZE

20kg woven polypropylene bags.

Or

Bulk loads: Contact your local Riverina Sales Representative for details.

Kokcisan™ is a product of Novus Nutrition P/L.

This feed is scientifically designed for the intended species of animal and should not be fed to any other animal. It may contain medication and ingredients that may prove harmful if fed to other species.
