

### PRODUCT DESCRIPTION

RIVERINA OSTRICH GROWER is a balanced supplementary feed for growing ostrich chicks from six (6) weeks of age to nine (9) months of age.

This feed is the second stage in a three stage-feeding programme for Ostriches. It is produced in short pellet form so that feed wastage is minimised, digestibility is improved and so that there is a consistent intake of nutrients (Note: there is no separation with pellets).

### COMPOSITION

- Base grain as depicted seasonally, and therefore proportions may vary.
- Wheat, maize, sorghum, bran and pollard, a combination of protein meals (cottonseed meal, soyabean meal, meat meal), vegetable/animal oil, limestone, sodium bicarbonate, salt, dicalcium phosphate, Vitamin E, choline chloride, amino acids, Lacto-sacc™, Riverina Vitamin and Mineral premix.

### DIRECTIONS FOR USE

- Environmental conditions including temperature and hygiene are of vital importance during the rearing period.
- This feed is a supplementary feed designed to be fed Ad lib. and it is necessary to feed lucerne chaff/hay and or adequate pasture in conjunction with this feed.
- Feed intakes will vary with the season, variety of housing conditions, disease status and other environmental conditions.
- It is important to change the feed regularly so it remains fresh and palatable.
- It is very important that birds have clean, cool, fresh water available at all times.

### TECHNICAL RELEVANCE

- Contains digestible ingredients for young animals
- Protein meals providing natural sources of essential amino acids. Lysine and methionine have been added to balance essential amino acid requirements.

### SPECIAL FEATURES

#### SUPPLEMENTARY FEED

- Supplies essential nutrients for growth.

#### IN SHORT PELLET FORM

- Eliminates separation that can occur with mash/meal type feeds. Improved digestibility. Consistent nutrient intake.

#### QUALITY PRODUCT

- Manufactured to strict quality control standards.

#### PRECISE FORMULATION AND MIXING

- Formulated in accordance with current research into Ostrich nutrition and mixed from a variety of quality raw materials.

#### LACTO-SACC™

- Lacto-sacc is included to promote healthy gut flora and to aid in digestion. Lacto-sacc is microencapsulated Lactobacillus acidophilus, Steptococcus faecium fermentation product, dried Aspergillus oryzae extract, and dried A. niger extract, dried Bacillus subtilis extract and beta glucan encapsulating agent.
