

PRODUCT DESCRIPTION

- RIVERINA BROILER STARTER CRUMBLES is suitable to be fed as a complete feed for growing meat chickens from day old through to approximately four (4) weeks of age. Chicks should have unlimited access to the feed (feed Ad lib.).
- This feed is the first stage in a two stage-feeding programme for growing meat chickens. It is produced in a fine crumble form so that feed wastage is minimised, digestibility is improved and so that a consistent intake of nutrients essential for growth is achieved. (Note: there is no separation with crumbles). This feed is formulated in accordance with current research into broiler nutrition and is mixed from variety of quality raw materials.

COMPOSITION

- Base grain as depicted seasonally, and therefore proportions may vary.
- Wheat, maize, sorghum, bran and pollard, a combination of protein meals (cottonseed meal, soyabean meal, sunflower meal, blood meal, meat meal), vegetable/animal oil, limestone, sodium-bicarbonate, salt, choline chloride, added lysine, added methionine, Avatec™, Riverina Vitamin and Minerals.

DIRECTIONS FOR USE

- Environmental conditions including temperature and hygiene are of vital importance during the rearing period.
- This feed is a complete feed and no supplementary feeding is necessary.
- During this period approximate feed intakes should be:

Age Of Birds	Approximate Feed Consumption
Week One	15-20 grams / bird / day
Week Two	35-40 grams / bird / day
Week Three	55-60 grams / bird / day
Week Four	75-80 grams / bird / day

- NOTE: The above feed intakes are only indicative. Feed intakes will vary with the season, variety of bird, lighting, shed conditions, disease status and other environmental conditions.
- For the first two days of feeding it is best to spread some feed on trays or newspaper to enable all birds access.
- It is important to change the feed regularly so it remains fresh and palatable.
- It is very important that birds have clean, cool, fresh water available at all times.

TECHNICAL RELEVANCE

- Contains digestible ingredients for young animals
- Protein meals providing natural sources of essential amino acids. Plus added lysine and methionine to balance essential nutrient requirements.
- Contains essential vitamins and minerals.

VETERINARY CHEMICALS

This feed contains the following veterinary chemical-

- Avatec™ (lasolocid sodium) at the rate of 90mg/kg.

MEDICINAL CLAIM

- Lasolocid sodium is added to this feed as an aid in the control of intestinal coccidiosis caused by the most common Eimeria species.

SPECIAL FEATURES

COMPLETE FEED

- Supplies essential nutrients for growth. No need for any other supplementary feed to be used.

IN CRUMBLE FORM

- Eliminates separation that can occur with mash/meal type feeds. Improved digestibility. Consistent nutrient intake.

QUALITY PRODUCT

- Manufactured to strict quality control standards.

PRECISE FORMULATION AND MIXING

- Formulated in accordance with current research into poultry nutrition and mixed from a variety of quality raw materials.

MEDICATED

- Medicated to aid in the prevention of coccidiosis.

WITHOLDING PERIOD

Meat. Nil. Eggs. Do not use in birds laying eggs for human consumption or fertile eggs.

WARNING

Do not feed to dogs, horses or other equines, may be fatal.

STORAGE

Cool, dry conditions, away from vermin.

EXPIRY AFTER MANUFACTURE

3 months from the date of manufacture.

PACK SIZE

20kg woven polypropylene bags.

Or

Bulk loads: Contact your local Riverina Sales Representative for details.

Avatec™ is a product of OzBioPharm P/L.

This feed is scientifically designed for the intended species of animal and should not be fed to any other animal. It may contain medication and ingredients that may prove harmful if fed to other species.
