

### PRODUCT DESCRIPTION

- RIVERINA (ROASTED) MICRONISED OAT FLAKES are steam treated, micronised and flaked then blended with pure molasses. Oat flakes are suitable to feed to all animals. The high fibre content may limit the animals intake.

RIVERINA (ROASTED) MICRONISED OAT FLAKES are not a complete ration. Balancing the calcium, phosphorus and the addition of a vitamin and mineral premix is recommended.

### DIRECTIONS FOR USE

- Fresh water should be available at all times.
- Introduce any feed changes slowly over 3 or 4 days.
- In the case of horses and ruminants, feeding a fibre source such as pasture, hay or chaff is essential.

### TECHNICAL RELEVANCE

- Micronization gelatinizes starch in the oats and converts it into sugars that are readily digested by the animal.
- The product is very palatable and can be used as a base feed or as a conditioning additive to existing feed.

### NUTRITIONAL ANALYSIS

PROTEIN	%	:	9.4
FAT/EE	%	:	6.5
CRUDE FIBRE	%	:	13.0
DIG ENERGY (HORSES)	MJ/kg	:	14.0
ENERGY ME (RUMINANTS)	MJ/kg	:	12.5

### SPECIAL FEATURES

- Enhanced palatability.
- Improved digestibility.
- Extended storage.
- Safer - less problems with founder and acidosis.
- Improved by-pass protein.

### WITHOLDING PERIOD

Meat. Nil.

### STORAGE

Cool, dry conditions away from vermin.

### EXPIRY AFTER MANUFACTURE

3 months from the date of manufacture.

### PACK SIZE

20kg woven polypropylene bags, yellow in colour.  
Not available in bulk loads.

This feed is scientifically designed for the intended species of animal and should not be fed to any other animal. It may contain medication and ingredients that may prove harmful if fed to other species.
