

PRODUCT DESCRIPTION

MILK MAKER PREMIUM DAIRY feed is available in pellet or meal form.

PURPOSE

- MILK MAKER PREMIUM DAIRY feed is designed to be fed as a supplement to pasture and/or hay/silage to lactating dairy cows and lactating beef cows.

COMPOSITION

- Base grain is depicted seasonally, therefore proportions may vary.
- Barley, sorghum, maize, wheat, bran and pollard, vegetable protein meals, vegetable oil, molasses, limestone, dicalcium phosphate, salt, magnesium oxide, urea, sodium bentonite, Rumensin™, Riverina Vitamin and Mineral Ruminant pak.

DIRECTIONS FOR USE

- Feed up to 10 kg per day in two feeds to lactating dairy cows during the lactation. It is important that feeding rates are increased gradually within the first 2-3 weeks of lactation.
- Feeding 6-8kg of Milk Maker Premium Dairy feed will supply the correct intake of Rumensin™ and essential nutrients.

TECHNICAL RELEVANCE

- Supplementing dairy cows with MILK MAKER PREMIUM DAIRY feed allows the animal to increase her dry matter nutrient intake. Leading to improved milk production, milk components, fertility and health.
- By supplementing, pressure is reduced on pastures, providing the ability for increased stocking rates where good pastures are present.
- Supplies energy, protein (bypass and rumen available protein), minerals, micro minerals and vitamins.
- Maintains good health and reproductive efficiency.
- Buffers are included to aid in guarding against acidosis.

SPECIAL FEATURES

COMPLETE FEED

- Supplies essential nutrients to optimise production.

QUALITY PRODUCT

- Manufactured to strict quality control standards.

PRECISE FORMULATION AND MIXING

- Formulated in accordance with current research in dairy nutrition and mixed from a variety of quality raw materials.

VETERINARY CHEMICALS

This feed contains the following chemical-

- Rumensin™ as monensin sodium at the rate of 30 milligrams per kilogram.

MEDICINAL CLAIM

- Monensin sodium is added to this feed to improve the efficiency of rumen digestion, improve milk production, aid in the control of bloat and the prevention of subclinical ketosis.

MEDICATION

- Customers purchasing MILK MAKER PREMIUM DAIRY in bulk have the option of adding medication or other additives. If the customer is feeding a lower feed level than above the rumensin level may be altered on request and medicated to the required level.

OTHER DAIRY PRODUCTS

Also available: Milk Maker Calf Rearer
Milk Maker Calf XLR8
Milk Maker Heifer grower
Milk Maker Springer
Milk Maker Peak (bulk only, 12% protein)
Milk Maker Supreme (bulk only, 16% protein)
Milk Maker Ultimate (bulk only, 18% protein)

Contact your local Riverina Sales Representative for details.

WITHHOLDING PERIOD

Meat Nil. Milk Nil.

WARNING

Do not feed to dogs, horses or other equines may be fatal.

STORAGE

Cool, dry conditions away from vermin.

EXPIRY AFTER MANUFACTURE

3 months from the date of manufacture.

PACK SIZE

20kg woven polypropylene bags.

Or Bulk loads: Contact your local Riverina Sales Representative for details.

Rumensin™ is a product of Elanco.

ISO 9001 & HACCP Certification
Lic. HAC 00160
Standards Australia

This feed is scientifically designed for the intended species of animal and should not be fed to any other animal. It may contain medication and ingredients that may prove harmful if fed to other species.
