

PRODUCT DESCRIPTION

- RIVERINA PIG BREEDER is suitable to be fed as a complete feed for lactating sows, pregnant sows and boars.
- RIVERINA PIG BREEDER is a dual-purpose sow ration that may be fed to all classes of breeding pigs. Large commercial piggeries should use a two (2) phase lactating sow/dry sow feeding program.
- RIVERINA PIG BREEDER is scientifically formulated to satisfy the nutritional requirements of breeding pigs to maximise performance.

COMPOSITION

- Base grain as depicted seasonally, and therefore proportions may vary.
- Blend of quality ingredients including wheat, bran and millrun, sorghum, barley, maize, soyabean meal, cottonseed meal, canola meal, pulses, meat and blood meal, added lysine, added fibre, vegetable and animal oils, Riverina Vitamins and Minerals.

DIRECTIONS FOR USE

- It is important with breeding animals to feed according to condition. Gilts (first litter sows) should be fed a grower type diet at approximately 3.0kg/day until approximately 120kg liveweight (30 weeks of age). It is important that gilts are not fed in excess of 2.30kg/day during the first 30-40 days of pregnancy (as this may reduce litter size by killing embryos).
- Gilts should be gaining 30kg of liveweight in the first pregnancy to be approximately 150kg liveweight at farrowing.
- Approximate feeding rates are listed below:

Class of Pig	Approximate Feed Consumption
Pregnant Sows (First 25-40 days of gestation)	2.0-2.5 kg / day
Pregnant Sows (Rest of Pregnancy)	2.5-3.0 kg / day
Lactating Sows (Feed to appetite)	6.0-10.0 kg / day
Boars	3.0-4.0 kg / day

- NOTE: The above feed intakes are only indicative. Feed intakes will vary with the season, shed conditions, disease status, genotype and other environmental conditions.
- It is important to change the feed regularly so it remains fresh and palatable.
- It is very important that pigs have clean, cool, fresh water available at all times.

TECHNICAL RELEVANCE

- Contains digestible ingredients for breeding animals.
- Protein meals providing natural sources of essential amino acids. Plus added lysine to balance essential nutrient requirements.
- Contains essential vitamins and minerals.

SPECIAL FEATURES

COMPLETE FEED

- Supplies essential nutrients for breeding performance. No need for any other supplementary feed to be used.

IN PELLET OR MEAL FORM

- Pellets eliminate separation that can occur with mash/meal type feeds. Improved digestibility. Consistent nutrient intake.
- Contains essential vitamins and minerals.

QUALITY PRODUCT

Manufactured to strict quality control standards.

PRECISE FORMULATION AND MIXING

- Formulated in accordance with current research into pig nutrition and mixed from a variety of quality raw materials.

WITHHOLDING PERIOD

Meat. Nil.

STORAGE

Cool, dry conditions, away from vermin.

EXPIRY AFTER MANUFACTURE

3 months from the date of manufacture.

PACK SIZE

20kg woven polypropylene bags.

Or

Bulk loads: Contact your local Riverina Sales Representative for details.

This feed is scientifically designed for the intended species of animal and should not be fed to any other animal. It may contain medication and ingredients that may prove harmful if fed to other species.
Ver: 3.0

Issue Date: May 2007
