

PRODUCT DESCRIPTION

RIVERINA PIGLET SUPA STARTER (EXPANDED) is a complete feed for growing piglets, from birth through to the second week after weaning.

RIVERINA PIGLET SUPA STARTER CRUMBLES is a SPECIALITY first stage feed in the RIVERINA PIG FEEDING REGIME.

The crumble is produced using modern EXPANDER technology for increased digestibility, increased feed intake and growth. Feed wastage is minimised and the risk of settling out has been removed.

COMPOSITION

• Blend of specialised ingredients including wheat, cereal meal, fish meal, biscuit meal, milk powders, soyabean meal, full fat soyabean meal, meat and blood meal, added Vitamin E, added amino acids, zinc oxide, Acidifier, Olaquinox, Wormtec™, attractants and flavours, antioxidant, Riverina Vitamins and Minerals.

DIRECTIONS FOR USE

- Environmental conditions including temperature and hygiene are of vital importance to ensure good performance.
- This is a complete feed and no supplementary feeding is necessary. Feed intakes during the first few weeks of life will be low, therefore feed should be offered in small amounts at regular intervals so that it remains fresh and attractive.
- This feed is designed to be fed during the suckling period through to approximately two weeks after weaning.
- During the first two weeks post weaning period approximate feed intakes should be:

Age of Piglets	Approximate Feed Consumption
5 weeks (one week post wean)	200-300 grams / day
6 weeks	300-400 grams / day

- NOTE: The above feed intakes are only indicative. Feed intakes will vary with the season, shed conditions, disease status and other environmental conditions.
- It is very important that piglets have clean, cool, fresh water available at all times.

TECHNICAL RELEVANCE

- Contains digestible ingredients for young animals
- Protein meals providing natural sources of essential amino acids. Plus added lysine, threonine and methionine to balance essential amino acid requirements.
- Contains essential vitamins and minerals, gut acidifiers, piglet attractants and flavours.

VETERINARY CHEMICALS:

This feed contains the following veterinary chemicals-

- Olaquinox at the rate of 100mg/kg.
- Morantel Citrate (Wormtec) at the rate of 30 mg/kg.

MEDICINAL CLAIM

- Olaquinox aids in improving live weight gain and feed conversion, may control Campylobacter induced diseases and may reduce scouring due to swine dysentery.
- Wormtec will aid in the control of worms such as the adult and migratory stages of large round worm (*Ascaris suum*) and nodular worm (*Oesphagostomum dentatum*).

NUTRITIONAL ANALYSIS

PROTEIN	%	:	22.00
CALCIUM	%	:	1.0-1.25
AV PHOS	%	MIN:	0.700
FAT	%	:	8.50
C FIBRE	%	MAX:	3.00
ENERGY DE PIG	MJ/kg	:	16.00
LYSINE	%	:	1.50
METHIONINE	%	:	0.500
VIT A	iu/kg	:	12,500
VIT D3	iu/kg	:	2,000
VIT E	mg/kg	:	71

SPECIAL FEATURES

COMPLETE FEED

- Supplies essential nutrients for growth. No need for any other supplementary feed to be used.

IN EXPANDED CRUMBLE FORM

- Manufactured using unique Expander technology, thus will improve texture quality, nutrient digestion and feed conversion rates. To increase weight gains and reduce diarrhoea scores.
- Eliminates separation that can occur with mash/meal type feeds. Improved digestibility. Consistent nutrient intake.

QUALITY PRODUCT

- Manufactured to strict quality control standards.

PRECISE FORMULATION AND MIXING

- Formulated in accordance with current research into piglet nutrition and mixed from a variety of quality raw materials.

MEDICATED

- Medicated to aid in the control of Campylobacter, swine dysentery, worm infestation and to improve weight gains.

WITHHOLDING PERIOD

Meat. 12 hours.

EXPORT SLAUGHTER INTERVAL

28 days.

STORAGE

Cool, dry conditions, away from vermin.

EXPIRY AFTER MANUFACTURE

3 months from the date of manufacture.

PACK SIZE

20kg, woven polypropylene bags.

Or Bulk loads: Contact your local Riverina Sales Representative for details.

Wormtec™ is a product of Phibro Animal Health.

This feed is scientifically designed for the intended species of animal and should not be fed to any other animal. It may contain medication and ingredients that may prove harmful if fed to other species.

Ver: 3.0

Issue Date: May 2007
