

PRODUCT DESCRIPTION

RIVERINA PIG WEANER is suitable to be fed as a complete feed for growing piglets. PIG WEANER should be introduced to piglets approximately two weeks after weaning.

RIVERINA PIG WEANER is a high protein, high energy feed formulated to satisfy the requirements of fast growing pigs from a live weight of 15kg to a live weight of 30kg. The live weight of 30kg should be achieved by 10 to 12 weeks of age.

RIVERINA PIG WEANER is a second stage feed in the RIVERINA PIG FEEDING REGIME.

COMPOSITION

- Blend of quality ingredients including Wheat, maize, sorghum, fish meal, biscuit meal, milk powders, soyabean meal, full fat soyabean meal, cottonseed meal, canola meal, pulses, meat and blood meal, Vitamin E, added amino acids, Olaquinox, attractants and flavours, Riverina Vitamins and Minerals.

DIRECTIONS FOR USE

- Environmental conditions including temperature and hygiene are of vital importance to ensure good performance of weaner stage.
- This is a Complete feed and no supplementary feeding is necessary. At first it is recommended that this feed be blended with RIVERINA PIGLET CREEP CRUMBLES so the feed changeover is as smooth as possible.
- Feed to piglets from a liveweight of 15kg (approx 2 weeks after weaning) to a liveweight of 30kg (10-12 weeks of age)

| Age of Piglets | Approx Weight | Approximate Daily Feed Intake |
|----------------------------------|---------------|-------------------------------|
| 6 weeks (two weeks post wean) | 15 kg | 350-400 grams |
| 7 weeks | | 450-550 grams |
| 8 weeks | | 550-650 grams |
| 9 weeks | | 650-800 grams |
| 10 weeks | | 800-1000 grams |
| 11 weeks | 30 kg | 1000-1350 grams |
| 12 weeks | 30 kg | 1350-1400 grams |

- NOTE: The above feed intakes are only indicative. Feed intakes will vary with the season, shed conditions, disease status, genotype and other environmental conditions.
- It is important to change the feed regularly so it remains fresh and palatable.
- It is very important that piglets have clean, cool, fresh water available at all times.

TECHNICAL RELEVANCE

- Contains digestible ingredients for young animals.
- Protein meals provide natural sources of essential amino acids. Lysine, threonine and methionine have been added to balance essential amino acid requirements.
- A gut acidifier has been added to improve digestion by increasing the acidity of the gut and to improve health by reducing any pathogens.

VETERINARY CHEMICALS

This feed contains the following veterinary chemical-

- Olaquinox at the rate of 100mg/kg.

MEDICINAL CLAIM

- Olaquinox aids in improving live weight gain and feed conversion, may control Campylobacter induced diseases and may reduce scouring due to swine dysentery.

NUTRITIONAL ANALYSIS

SPECIAL FEATURES

COMPLETE FEED

- Supplies essential nutrients for growth. No need for any other supplementary feed to be used.
- Contains essential vitamins and minerals, gut acidifiers, piglet attractants and flavours.

IN PELLET OR MEAL FORM

- Pellet eliminates separation that can occur with mash/meal feeds. Improved digestibility. Consistent nutrient intake.

QUALITY PRODUCT

Manufactured to strict quality control standards.

PRECISE FORMULATION AND MIXING

- Formulated in accordance with current research into piglet nutrition and mixed from a variety of quality raw materials.

WITHHOLDING PERIOD

Meat. 12 hours.

EXPORT SLAUGHTER INTERVAL

28 days.

STORAGE

Cool, dry conditions, away from vermin.

EXPIRY AFTER MANUFACTURE

3 months from the date of manufacture.

PACK SIZE

20kg, woven polypropylene bags.
Or Bulk loads: Contact your local Riverina Sales Representative for details.

This feed is scientifically designed for the intended species of animal and should not be fed to any other animal. It may contain medication and ingredients that may prove harmful if fed to other species.
Ver: 3.0

Issue Date: May 2007
